

## **Addendum #001: Questions, Comments & Clarifications**

(09/20/2019)

### **Luzerne County Transportation Authority (LCTA) Request for Proposals (RFP 18-19-001) Bus Stop Sign Production with Option for Bus Stop Signage Installation Services**

**Concern:** I have only one supplier who carries the 24" x 12" reflective aluminum blanks. I have no way to ensure the supplier will have 900 available, to complete the project within the 30 days cited on page 14.

**Response:** LCTA will add an amendment changing/extending the 30-day project completion parameter

**Concern:** is there any flexibility with a deposit? Obviously, I can cover my material costs, but I am always cognizant that non-payment is a possibility. And I do not want to be in the position that I am out that kind of money. In the past with grants, I have been able to submit for draws as I procure the raw materials. Obviously, labor, etc. does not get paid out until completion of the project

**Response:** (To Be Determined) progress payments may be available
